Manager, Chemical Environmental Protection
Akron, Ohio 44361-0001

Dear Fred:

The Ohio Environmental Protection Agency (Ohio EPA) has documented the release of hazardous substances, pollutants, and contaminants at the above-referenced site, and anticipates taking action pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. 9601 et seq. ("CERCLA").

Section 104(e) of CERCLA empowers Ohio EPA to require the submission of information from any person who generates, transports, stores, disposes, treats or otherwise handles or has handled hazardous substances in order to determine the need for a response to a release of hazardous substances or enforcing the provisions of CERCLA. This information may also be required to be submitted when necessary to ascertain facts which are not available at a site where hazardous substances have been released. Similar authority is granted Ohio EPA pursuant to Section 3007 of the Resource Conservation and Recovery Act of 1976, 42 U.S.C. 3251 et seq. ("RCRA") to obtain information from any person or company who generates, stores, treats, transports, disposes, or otherwise handles or has handled hazardous wastes.

Accordingly, a formal request is hereby being made that you or your company answer the questions posed and provide copies of the documents requested in the Attachment to this letter. Your answers to these questions must be sent to the undersigned at Ohio EPA within thirty (30) calendar days of the date of this letter, unless an extension is requested and granted. Under Section 106 of CERCLA, and Section 3008 of RCRA, failure to comply with this request may result in an order requiring compliance or a civil action for appropriate relief, which can result in civil penalties being assessed.

Section 149.43 of the Ohio Revised Code may render the information you provide a public record. However, Rule 3745-50-30 of the Ohio Administrative Code may entitle the information to trade secret protection, provided that trade secret status is requested at the time of submission and a satisfactory showing is made that the documents are entitled to protection. Please consult the above mentioned rule for details, should you desire confidentiality.
